

Getting into Medical Writing – Speaker Biographies

Sarah Hopwood, PhD is Chief Operating Officer & Director of Medical Writing at Scinopsis, a consultancy based in France and the UK. Sarah began her medical writing career in 2006, initially working in a busy international medical communications agency before joining Scinopsis in 2009. Prior to medical writing, she worked as a post-doctoral research scientist and authored numerous publications in the field of neuroscience. Sarah is very experienced at writing a wide range of regulatory documents and medical communications covering many different therapeutic areas. She has been an active member of EMWA since 2007 and is an EMWA workshop leader (Clinical Study Reports – Mastering the Essential Skills). Sarah also runs an interactive seminar (Introduction to Medical Writing) aimed at people considering a career in medical writing or those who have recently joined the profession. Affiliation: Scinopsis Medical Writing. Email: sarah.hopwood@scinopsis.com

Namrata Singh, MBBS, DNB, MBA, is the founder at Turacoz B.V, a medical writing agency working with industry and academic institutes to support product life cycle communication from development to approval and post-marketing phase. She is an active member of EMWA since 2015 and has contributed to publications for Medical Writing, journal of EMWA. She has conducted CPD accredited training courses and workshops for freshers looking to enter medical writing as a career and professionals to upskill themselves.

Sarah Tilly believes that everyone has their own, unique contribution to give to our industry. For this reason, she has been involved in mentoring new medical writers since an early stage of her career. In parallel with her largely regulatory writing experience, she has managed and mentored several teams of writers. At Azur Health Science, she is actively involved in advising and mentoring other writers and has set up an online learning platform, Sarah Tilly Mentoring. Sarah has been medical writing since 2006. She holds a first degree in Biology and a PGCert in International HTA, Pricing and Reimbursement. Affiliation: Azur Health Science | Email: sarah@azurhealthscience.com

Claire Gudex, MBChB, MD, is an associate professor at the University of Southern Denmark, where she teaches academic writing and undertakes research in patient outcome measurement. She has a medical degree from New Zealand and has worked as a health services researcher in the UK for 10 years and then in Denmark since 1995. Claire has been a member of EMWA since 2011 and is the section editor for the 'Teaching Medical Writing' column in the EMWA journal Medical writing. She also leads an EMWA workshop on Quality of life measurement.

Jacqueline (Jackie) L. Johnson, PhD, is an Expert Scientific Writer at Novartis and the Managing Director of JLJ Consultancy B.V., a medical communications consulting company. She has 10+ years of scientific writing experience across most disease states, having published over 30 manuscripts and counting. She is co-founder of the Netherlands SciMed Writers Network, an EMWA workshop leader (Congress Coverage), and a review editor of Blockchain for Science. Affiliation: JLJ Consultancy BV, Amsterdam, NL. Email: info@jljconsultancy.com

Evguenia Alechine, PhD, is a science communicator, lecturer and career coach for academics transitioning into science communication. She is an active member of EMWA, the chair of the Getting into Medical Writing group, and the co-editor of the Medical Writing journal. She has extensive experience in helping PhDs transition into the medical and scientific writing field. Email: ealechine@gmail.com

Peter Llewellyn leads the global MedCommsNetworking.com activities and publishes the free information resources at FirstMedCommsJob.com to help people learn about careers in medical writing and related roles. Nicole Dexter is a Talent Acquisition Manager at McCann Health Medical Communications and Pete Griffiths is HR and Recruitment Officer at Bioscript. Email: peter@networkpharma.com

Clare (Chi-Chih) Chang, PhD is a medical regulatory writer at AstraZeneca where she specialises in developing clinical documents for pre-IND/IND/NDA/BLA submissions. Prior to medical writing, she freelanced for >10 years as a writer, editor, and translator working with both scientific and non-scientific documents. She has a background in Molecular Biology across several fields including Molecular Medicine, Regenerative Medicine, and Immunology. Clare is one of the Associate Editors for the journal Medical Writing and a member of the European Medical Writers Association. She also provides career guidance for aspiring medical writers as one of the leads in the Medical Writing Organization. Personally, she is a millennial Third Culture Kid having grown up in South Africa and lived in Taiwan, Denmark, and China. Affiliation: Clinical regulatory writing, Associate Director, AstraZeneca. Email: clarechangphd@gmail.com
